

REACH Cutter Plotter : Vertical

- Increase your productivity while reducing the risk of errors.
- Enhance the quality of your prototypes and samples.

REACH Cutter Plotter is the most reliable Vertical Cutter Plotter for producing pattern and templates.

- ✓ A pen and special steel blade enables cutting a range of materials.
- ✓ Smooth and Precise cutting.
- ✓ User friendly media alignment.

Specifications	REACH Cutter Plotter : Vertical
Effective Cutting Range	: 1000 mm AND 1200 mm
Cut Materials	: Brown pattern paper
Cutting Thickness	: upto 0.5 mm
Cutting Precision	: < 0.1mm
Overlapping Precision	: < 0.1mm
Cutting Speed	: 20 to 80 mm / s
Resolution Ratio	: 0.025 mm
Transmitting port	: Parallel Port/RSC232 Serial Port
Buffer area capacity	: Buffer area of large capacity for high speed transmission of data at a time
Instructions set	: HP-GL / DM - PL CAD
Numerical control board	: LCD, Contact Button
Tool Type	: Special steel blade
Pen Type	: Oil Pen, Ball Pen
Voltage	: 220 V 50 Hz
Fuse Standards	: 5A
