Way Forward

Please write to us at info@reach-tech.com or message us at WhatsApp +91- 8459278496 to request a call back.

<u>We offer a number of engagement options.</u>

1. REACH CAD software license purchase with or without Online / Onsite Training.

2. REACH CAD software rental/ subscription for 1 (One) day to 1 (One) year with or without Online / Onsite Training.

3. Online / Onsite Training on REACH CAD. We provide REACH CAD software licenses and Trainer. You provide Class Rooms and Trainees. We also leave REACH CAD software licenses with you for 1 (One) week to 3 (Three) months for Trainees to practise. We offer training in over 50 different languages.

Benefits of REACH 3D

- Compress Product Development Time - Drive down product development time using intuitive tools to create 3D Digital Prototypes of apparel, garments and clothing saving over 80 % time compared to physical prototypes.

- Save Resources-Eliminate or minimize physical prototypes by creating realistic, life like 3D Digital Prototypes of apparel, garments, and clothing saving material resources

- Collaborate Easily - Share the 3D Digital Products of apparel, garments, and clothing with team members, customers, suppliers and partners, as required, easily and fast to arrive at decisions faster.

- Easier Project Management - Manage various projects easily by having all details of 3D Digital Products of different orders for apparel, garments, and clothing easily available for ready reference at any time.

- Accelerate Business Velocity -Rev up your business engine and accelerate your business in the digital economy by combining easy collaboration, effective project management and by eliminating errors.

- Build a Strategic Competitive Advantage - Returns On Investment is a function of Business Velocity and Margins. REACH 3D enables higher Margins while accelerating your Business Velocity and can help you build a long term, sustainable competitive advantage.

REACH 3D

3D Prototyping and Visualisation Software

For Researchers

Industry 4.0   Artificial Intelligence   Machine Learning   Analytics

Intelligent Solutions for Apparel Sector

REACH 3D

What does REACH 3D do?

Fashion is, by definition, a short life-cycle industry. What sells now may not sell a couple of months later.

Fashion supply chain is hugely exploded and spans countries across many continents.

Effective collaboration between team members across design, product development, sampling, production, merchandising, and marketing in geographically distant locations is critical to getting fashion products to customers at the right time.

REACH 3D enables Virtual, Digital Product Development and Visualization, drastically cutting down fashion product development cycle times and saving resources.

REACH 3D for Researchers

- If you are a researcher interested in studying the impact of technology on the local economy or generating employment for women or how to leverage deep learning models for Apparel merchandising or similar other interesting areas, we would like to talk to you.
