

COMPUTERIZED AUTOMATIC INDUSTRIAL FABRIC CUTTING MACHINE

HFC Series
Model No. 9081

Discover the revolutionary technology of our fabric cutters, offering innovative solutions that redefine fabric cutting with precise and efficient performance, transforming your workflow.

Experience the excellence of our fabric cutters, delivering outstanding cutting precision and premium-quality results, ensuring your fabrics are handled with unparalleled care and precision.

Embrace the exclusive capabilities of our fabric cutters, crafted for prestigious fabric cutting applications, providing top-tier performance and high-end cutting quality that sets them apart.

Our fabric cutters excel in exceptional cutting power, delivering remarkable precision and unmatched cutting accuracy that surpasses industry standards.

Air Pressure	9 KPS
Cutting Thickness	Max 80 mm
Cutting Tolerance/ Accuracy	±0.1mm
Cutting Speed	2000-2500mm/s
Cutting Type	Straight Knife continuous Up-down Cutting
Dimension	3600*2300*1600mm
Format Support File	.dxf, .png, .jpg, .psd, .cdr
Interface	Ethernet
Machine Power	38 KW
Operating Temperature	600°C
Software	Automatic cutting system Copyright
Voltage	AC380V/50Hz 25Kw
Weight	4500KG
Working Area	2500×4800mm
