

COMPUTERIZED AUTOMATIC INDUSTRIAL FABRIC CUTTING MACHINE

NFC Series
Model No. 8081

Our fabric cutters offer optimal cutting performance, delivering the best results with ideal precision, prime cutting quality, and perfection in handling fabrics.

Experience fabric cutting at a professional-grade level with our high-quality fabric cutters, designed to meet industry standards and provide premium performance for professional applications.

Robust fabric cutters, providing high-speed cutting, superior efficiency, and top-notch performance for demanding projects.

Enjoy a streamlined fabric cutting experience with our fabric cutters, featuring a simplified and integrated design that ensures efficiency, smooth operation, and seamless fabric cutting processes.

Air Pressure	7 KPS
Cutting Thickness	Max 70 mm
Cutting Tolerance/ Accuracy	±0.1mm - 10.0mm
Cutting Speed	1200-1800mm/s
Cutting Type	Straight Knife continuous Up-down Cutting
Dimension	5900*2950*1500mm
Format Support File	.dxf, .png, .jpg, .psd, .cdr
Interface	Ethernet
Machine Power	22 KW
Operating Temperature	600°C
Software	Automatic cutting system Copyright
Voltage	AC 110V/220V
Weight	3500kg
Working Area	1800×3000mm
