

HIGH SPEED INKJET PLOTTER

HIP Series

Model No. 3181

Avant-garde technology of our cutting-edge inkjet plotters, delivering groundbreaking printing solutions with exceptional precision and unmatched performance.

Premium quality and exceptional capabilities of our superior inkjet plotters, providing top-of-the-range performance and first-class print results.

Elevate your printing experience with our prestigious inkjet plotters, offering elite-level features and upscale printing for the most demanding professionals.

Futuristic technology of our advanced inkjet plotters, equipped with state-of-the-art features and ultra-precise printing for flawless and accurate output.

Modern technology of our state-of-the-art inkjet plotters, offering next-generation features and technologically advanced printing for the contemporary professional.

|-------------------------------------|-------------------------------------|
| Plotting Width | 2500 mm |
| Plotting Speed | 2500-2750 mm/s |
| Processing Area | 2200-3000 mm |
| Plotting Resolution | 150-600 DPI |
| Max Paper Feed Width | 2750 mm |
| Max Cutting Feed Width | 2500 mm |
| Print Media | Paper roll with diameter up to 28cm |
| Voltage Requirement | 300V |
| Dimensions | 3000*1500*1200mm |
| File Format | DST, DWG, DXF, CDR, PSD, PNG, JPEG |
| Plotting Precision Tolerance | 0.025 mm |
| Pc Interface | USB |
| Noise Level | <39db |
| Power | 220 W |
| Voltage | AC220V/110V,50Hz |
| Operating Temperature | 10-40 Degree Celcius |
| Weight | 750 KG |
