

HIGH SPEED INKJET PLOTTER

MIP Series

Model No. 1181

High-quality inkjet plotters delivering vivid and detailed prints, representing the pinnacle of printing excellence.

User-friendly plotters ensuring professional-grade results with exceptional color accuracy.

Efficient inkjet plotters maximizing productivity and minimizing downtime.

Innovative inkjet plotters meeting the demands of various printing needs.

High-performance inkjet plotters elevating printing projects with precision and reliability.

| | |
|-------------------------------------|-------------------------------------|
| Plotting Width | 1250 mm |
| Plotting Speed | 900-1000 mm/s |
| Processing Area | 900-1200 mm |
| Plotting Resolution | 150-600 DPI |
| Max Paper Feed Width | 1650 mm |
| Max Cutting Feed Width | 1550 mm |
| Print Media | Paper roll with diameter up to 28cm |
| Voltage Requirement | 220V |
| Dimensions | 1900*330*395mm |
| File Format | DST, DWG, DXF, CDR, PSD, PNG, JPEG |
| Plotting Precision Tolerance | 0.025 mm |
| Pc Interface | USB |
| Noise Level | <39db |
| Power | 90 W |
| Voltage | AC220V/110V,50Hz |
| Operating Temperature | 10-40 Degree Celcius |
| Weight | 100 KG |
