

# COMPUTERIZED AUTOMATIC INDUSTRIAL FABRIC SPREADING MACHINE

---

**HFS Series**  
Model No. 5081

Explore the innovative capabilities of our fabric spreaders, representing a revolutionary approach to fabric handling with state-of-the-art technology and next-generation features.

Unleash the outstanding performance of our fabric spreaders, delivering premium-grade precision, high-quality results, and a superior fabric handling experience that surpasses expectations.

Step into the realm of high-end fabric spreading with our elite-level fabric spreaders, offering exclusive features, prestigious performance, and top-tier fabric handling for the most demanding applications.

Embark on an extraordinary fabric spreading journey with our advanced fabric spreaders, showcasing remarkable efficiency, exceptional accuracy, and unprecedented fabric handling capabilities.

<b>Applicable Industries</b>	Garment Shops
<b>Applicable Material</b>	Non Woven, Elastic Fabrics, Fibre Fabrics
<b>Color</b>	Silver
<b>Diameter of Fabric Roll</b>	Max. 50cm
<b>Dimensions</b>	2450*1850*880mm
<b>Double Pulling Height</b>	1200 mm
<b>Fabric Weight</b>	Max. 150 KG
<b>Height of Fabric/ Rag</b>	6500 mm
<b>Laying/Spreading Width</b>	210cm
<b>Fabric Roll Load</b>	Smaller than 70cm
<b>Machine Weight</b>	700 KG
<b>Power Supply</b>	2.5KW
<b>Rag/ Fabric Width</b>	30mm
<b>Single Pulling Height</b>	30cm
<b>Speed</b>	1430mm/s
<b>Voltage</b>	280V
